

Summative Assessment Rubric for Performance Task
GOAL: How can we create a 3-dimensional package that can safely hold a teapot to post?

PART C

REFLECTION (Reflect on collaborative performance.)

Have we achieved our goal? _____ How do we know? _____

ATTITUDES (Reflect on collaborative performance.)

Commitment

We were committed to learning what we needed to in Math. We persevered to solve the problem. We showed self-discipline to stay focussed and work together. We showed responsibility to others and our Math.

Confidence

We felt confident in our Math ability and our skills. We took risks to try new strategies. We applied the Math we have learned as soon as we could. We made good choices and decisions in Math and in our group.

Cooperation

We worked cooperatively. We used our manners. We shared materials. We took turns. We worked out the Math steps together. We worked out a Math solution together. We kept within our roles.

Creativity

We were creative in thinking about a Math solution. We were creative in working out how to solve the Math problem. We were creative in working out how to solve any problems within our group.

SKILL

Group Decision-Making

We listened to each other. We discussed our ideas. We asked each other questions. We worked towards and reached consensus when needed.

LEARNER PROFILE (Reflect on collaborative performance.)

Explain which parts of the learner profile which you have all used or improved in. _____

Overall Summative Assessment Result	1 Beginning ★	2 Developing ★★	3 Achieving ★★★	4 Excelling ★★★★
